JOSHUA ROLAND

BIO

Frontend developer with an eye for good design and decent codebase structure. I work efficiently to ensure that my code is readable and reusable by employing good code practices like using the BEM naming convention, working with the mobile-first approach, paying attention to make designs responsive for the viewports that the users will most likely have and optimizing my websites for speed and good user experience.

MY TOOLKIT

- HTML, CSS.
- JAVASCRIPT.
- TAILWINDCSS.
- REACT.
- NODEJS, EXPRESS, MONGODB
- GIT

EXPERIENCE

ZURI TRAINING

MAY 2022 — JULY 2022, VIRTUAL

- Learned the basics of HTML,CSS and JAVASCRIPT.
- Worked on tasks to build soft skills like problem solving, researching and critical thinking.
- Developed a replica of an existing website (https://289volts.github.io/Zuri.team-website-clone/)

TICK BLOG — *JUSTPROJECTS COMMUNITY*

OCTOBER 2022, VIRTUAL

- Lead a cross-functional team of developers and designers to develop a blog site that hosts articles based on web development.(https://Ydanladi.pythonanywhere.com/)

CERTIFICATION

ZURI TRAINING — *FRONTEND DEVELOPMENT*

MAY 2022 — JULY 2022, VIRTUAL
